PROGRAM OVERVIEW

ASPIRE X is a high CLTV, exterior-only appraisal cash-out, debt consolidation or piggy-back purchase junior lien (second position or better only) program available for 1-4 unit primary residences, second homes, and investment properties.

Section 1.0 Introduction

1.1 Overview and Underwriting Philosophy

The FundLoans Apex X Mortgage Guidelines (hereafter referred to as "Guidelines") outline the requirements for residential mortgage loans to be originated to FundLoans Capital (hereafter referred to as "FundLoans"). This document serves to provide guidance and consistency in the underwriting and review of the loan and its characteristics related to the borrower and property. FundLoans offers programs to originators for borrowers who may have limited access to credit. As such, FundLoans evaluates many elements of the loan but primarily relies on the evaluation of the borrower's ability to repay the loan. In addition to ability-to-repay (ATR), FundLoans' programs take into consideration—with the expectation of full verification and examination—the borrower's income stability and employment history, credit history, asset position, and the property being used for collateral. Each loan is assessed on the basis of its individual merits with a common sense and holistic approach to the borrower's ability and willingness to repay. To this end, FundLoans' programs consider the benefit to the borrower on each loan.

1.2 Underwriting Criteria

The Guidelines are intended to reference and supplement the Fannie Mae Seller Guide. For specific information concerning qualification requirements that are not referenced in this document, Originators should refer to the Fannie Mae Seller Guide. For specific loan characteristic and eligibility requirements related to LTV, FICO, DTI, etc., refer to the FundLoans Matrix (hereafter referred to as "Matrix"). Loans originated to FundLoans must meet the criteria of the current published Guidelines and Matrix as of the loan application date.

1.2.1 Ability-To-Repay (ATR)

FundLoans requires the Ability-To-Repay Borrower Attestation or similar document be included with all loan files originated.

1.2.2 Alternative Loan Review / AUS

All loans will be manually underwritten. The Underwriting Approval, Income Calculation Worksheet, and the Underwriter's determination of ATR is required. All loans must have evidence of agency ineligibility. As an option, the lender may utilize an AUS Recommendation for guidance on income documentation in lieu of documentation requirements on matrix.

Section 2.0 Aspire X Program and Requirements

2.1 Program Overview

The FundLoans closed-end second can be stand-alone and in combination with new first liens (piggy-back). When used in combination with a new first mortgage, the income documentation used for qualifying must be the same for both liens.

See Matrix for details and program specific.

The program is designed for primary, second home and investment borrowers. For both QM and Non-QM transactions, with flexibility in mortgage history, credit history, and/or payment and documentation options. This program offers expanded credit parameters for multiple borrower profiles while utilizing standard and alternative document types. On piggy-back transactions, the income documentation type must match the requirements of the 1st lien approval.

- **Alt Doc Bank Statements**: 12, 24 Bank Statements

2.15 Property Hazard Insurance

2.15.1 Coverage Requirements

Following Fannie Mae (FNMA) guidance, the property insurance policy must provide the claims to be settled on a replacement cost basis. The coverage amount must be at least equal to the lesser of:

- 100% of the replacement cost of the improvements as of the current property insurance effective date, or
- The unpaid principal balance of all liens, provided it equals no less than the replacement cost value of the improvements

Follow FNMA guidance for additional information.

Lender is to be added as additional loss payee.

2.16 Flood Insurance

Flood insurance is required for any property located within any area designated by the Federal Emergency Management Agency (FEMA) as a Special Flood Hazard Area (SFHA). A SFHA is typically denoted as Flood Zone A or Zone V (coastal areas). Properties in Flood Zone A or V must be located in a community which participates in the FEMA program to be eligible for financing.

Flood insurance must be maintained throughout the duration of the loan.

2.16.1 Flood Certificate

Determination whether a subject property is in a flood zone must be established by a Flood Certificate provided by the Federal Emergency Management Agency (FEMA). Flood Cert from CoreLogic or ServiceLink is preferred. The appraisal report should also accurately reflect the flood zone.

The flood insurance requirement can be waived if:

- Subject property improvements are not in the area of Special Flood Hazard, even though part of the land is in Flood Zone A or V; or
- Borrower obtains a letter from FEMA stating that its maps have been amended so that the subject property is no longer in an area of Special Flood Hazard

2.16.2 Minimum Flood Insurance Coverage

For reference, the minimum amount of flood insurance required for most first mortgages secured by 1-unit properties and individual PUD units is the lower of:

- 100% of the replacement cost of the insurable value of the improvements;
- the maximum insurance available from the National Flood Insurance Program (NFIP), which is currently $250,000 per dwelling; or,
- the unpaid principal balance of the mortgage.

The minimum amount of flood insurance required for a PUD or condo project is the lower of:

- 100% of the insurable value of the facilities; or,
- the maximum coverage available under the appropriate National Flood Insurance Program (NFIP).

The flood policy for a PUD or condominium project must cover any common element buildings and any other common property located in a SFHA.

2.17 Prepayment Penalties

Prepayment penalties are only eligible for DSCR Closed-End Second loan transactions on non-owner and investment properties (business purpose only - both DSCR and non-DSCR programs). See Rate Sheet and Exhibit A – Prepayment Penalty Restrictions for details.

DSCR loans require a minimum 1-year prepayment penalty where allowable by state law.

For all other loan transactions (primary residence, second home, non-business purpose investment), prepayment penalties are prohibited.

Note: States may impose different definitions of points and fees, rate/APR, or prepayment penalties that apply under HOEPA. States may also use different triggers in each category for determining whether a loan will be a "high-cost mortgage" (or equivalent terms) under state law. Prepayment penalty must be in compliance with the terms and limitations of the applicable state or federal law.

2.18 Title Reports

The following are eligible title report types:

- Owners & Encumbrance (O&E) Report with required Closing Protection Letter (CPL) allowed for stand-alone refinance CES loans up to $350,000

8.10 Investor Debt Service Coverage Ratio (DSCR)

8.10.1 DSCR: Investor DSCR (Debt Service Coverage Ratio)

This program is designed for experienced real estate investors and qualifies borrowers based on cash-flows solely from the subject property. Only stand-alone cash-out transactions are eligible for this program.

The borrower must have a history of owning and managing commercial or residential investment real estate for a period of at least 12 months within the most recent 36 months. Proof of this investor experience must be in loan file. See also 8.11.5 DSCR: Professional Investor.

No borrower employment or income to be included on the application.

Borrower must acknowledge the loan is a “business purpose loan” via the Occupancy Affidavit.

DSCR loans are classified as business loans. Appendix Q and ATR requirements do not apply.

First-Time Investors are not eligible for this transaction type.

8.10.2 DSCR: Restrictions

See Matrix for acceptable credit, max CLTV, reserves, loan amount and DSCR for the transaction.

Not eligible for owner occupied or second home.

Not eligible for purchase/piggyback transactions, or transactions involving first time investors.

Pre-payment penalty must be in compliance with the terms and limitations of the applicable state or federal law.

8.10.3 DSCR: Documentation

Income used to qualify borrower is based upon cash flow from subject property.

All DSCR loans must include a Form 1007 Comparable Rent Schedule for long-term rental leases. For short-term rental leases, Form 1007 or Short-Term Rental Analysis form developed by the AMC must be provided.

A 4506-C is NOT required.

Refinance Currently Leased 1-4 units:

DSCR is calculated using lower of lease agreement or rent survey (1007).

If existing lease agreement(s) show a higher rental amount than the market rent, the higher rents may be used with receipt of most recent three (3) months payments (e.g. cancelled checks, bank statements, etc.), or as per the terms on the lease agreement for new leases (must document receipt of first month's payment and security deposit).

If the market rent on Form 1007 is greater than the existing lease, the higher market rents may be used as listed not exceeding 120% of the lease amount to qualify (e.g. lease is $1,400 and Form 1007 is $1,800, then $1,680 may be used to qualify. A copy of the lease is not required if the appraiser lists the rent amount for the subject on Form 1007. Otherwise, a copy of the lease is required.

Refinance vacant single unit property:

- Utilize rent survey to calculate DSCR.

Refinance 2-4 unit with a vacancy:

Eligible with maximum of 1 vacant unit. Use lower of lease agreements or market survey for leased units. Use market survey for vacant unit to calculate DSCR.

If existing lease agreement(s) show a higher rental amount than the market rent, the higher rents may be used with receipt of most recent three (3) months payments (e.g. cancelled checks, bank statements, etc.), or as per the terms on the lease agreement for new leases (must document receipt of first month's payment and security deposit).

If the market rent on Form 1007 is greater than the existing lease, the higher market rents may be used as listed not exceeding 120% of the lease amount to qualify (e.g. lease is $1,400 and Form 1007 is $1,800, then $1,680 may be used to qualify. A copy of the lease is not required if the appraiser lists the rent amount for the subject on Form 1007. Otherwise, a copy of the lease is required.

DSCR Refinance Seasoning:

- Not available with less than six (6) months seasoning. After 6 months seasoning, the current appraised value may be used to calculate CLTV.

Accessory Dwelling Unit (ADU) – see 3.2.3 Accessory Dwelling Units (ADU) for eligibility criteria.

- Market rent for the accessory dwelling unit should be documented on Form 1007, and the file must include a copy of the current lease with two (2) months proof of current receipt.

Short Term Rental:

Short Term Rental is defined as a property that is rented based on a nightly rate charge. Any leases or rentals that include a monthly rental amount are considered long-term rental (LTR).

Parameters for Short Term Rental are as follows:

- Nightly rate charge must be provided
- Property must be located in an established short term rental market and confirmed in the property appraisal
    - Short-term rents may not be utilized if state or local (city or county, etc.) regulations restrict the ability of the subject property to be rented on a short-term basis.
- Gross rents reduced by 20% for specific costs (advertising, cleaning, etc.)
- Use the leases used throughout the year and average over the 12-month period. If there

are months where the property is vacant, use zero for that month in the average. The average should be supported by the comparable rent schedule (within reason).

- o If subject property leased on a short-term basis utilizing an on-line service such as VRBO/Air BNB; gross monthly rents can be determined by using a 12-month look back period and either 12-monthly statements or an annual statement provided by the on-line service to document receipt of rental income. If documentation cannot be provided covering a 12-month period, the property will be considered unleased.

An expired lease agreement that has verbiage that states the lease agreement becomes a month-to-month lease once the initial lease/rental term expires is allowed.

All borrowers must provide the following:

- A complete schedule of all real estate owned, indicating financed and "free and clear" properties
- Mortgage/lien rating for the subject property and the primary residence
- Documented proof that lien-free properties are truly "free and clear" of all liens

8.10.4 DSCR: Qualification

Loan qualification is based on Debt Service Coverage Ratio (DSCR) for the subject property.

- Use Note Rate to calculate PITIA for use in Debt Service Coverage Ratio (DSCR).

Debt to Income (DTI) ratio is not calculated.

DSCR (Debt Service Coverage Ratio):

The debt service coverage ratio is calculated by taking the gross rents divided by the PITIA of the subject property.

- No vacancy factor for leased properties.
- Use the Note Rate to calculate PITIA (see Matrix for details).
- Rents are derived from the lesser of the rental/lease agreement or the rent survey (Form 1007). See 8.11.3 for allowance to use higher rent amount from lease agreement.
- Minimum DSCR – 1.00

8.10.5 DSCR: Housing History

A satisfactory housing payment history for the previous twelve (12) months is required for the borrower's primary residence, as well as the subject property. If housing payment history(s) are verified using a VOM or VOR (private mortgage, landlord, etc.), no additional documentation (e.g. cancelled checks) is required. Any housing event or mortgage tradeline delinquency reported on the credit report for any property owned by the borrower needs to be included in the housing history eligibility. For any non-subject property, non-primary mortgages not reporting to the credit bureau, additional housing history is not required.

- If a borrower has less than 12-months primary housing history verified, a 12-month satisfactory mortgage history from another REO owned by the borrower may be utilized.
- If borrower is a Professional Investor (see section 8.11.6 DSCR: Professional Investor for additional information).

- Currently owns 5 properties (Primary residence included).
- Has five (5) years credit depth reported on credit report.

Reduced Documentation:

- Mortgage histories on non-subject properties are not required.
- Borrower housing history not required.

Required Information:

- At least five (5) properties owned by the borrower to be listed on REO schedule
